

# Primetime Pump

The Primetime Pump is a high performance self-priming 316 stainless steel centrifugal pump. The pump is ideal for marine, industrial, agricultural or commercial applications where suction lift is required.

Primetime features all 316 stainless steel components for superior corrosion resistance when pumping sea water or chemical compounds. A carbon/ceramic/Viton mechanical shaft seal is standard. Ports are 3/4" NPT with a 1/8" NPT fill port. The Primetime model is capable of 12 foot suction lift (3450 rpm). Marine ignition protected motors (ISO 8846).
